SUMMARY

Aspiring software engineer from Queens College (3.93 GPA) with hands-on experience building games and teaching coding. Combines strong algorithmic understanding with a focus on user experience across software projects. Seeking a software engineering role to apply technical skills gained through coursework and independent development.

EDUCATION

- Queens College CUNY**, Flushing, NY *Sept 2023 - May 2026*
Computer Science BA
- 3.93 GPA.
- Bernard M. Baruch College CUNY**, New York, NY *Sept 2022 - May 2023*
Computer Information Systems BBA
- 4.0 GPA. Transferred to Queens College CUNY.

HONORS & AWARDS

- Phillip Drummond Memorial Award, in recognition of outstanding scholarship *2026*
- Presidential Scholar (Queens College) *2024 and 2025*
- Dean's Lists (Queens College) *All semesters from Spring 2023 to Spring 2026*
- Dean's List (Baruch College) *Fall 2022*

PROJECTS

Manga Downloader Web Application

- Built a Node.js web server that allows users to search, query, and download manga via the MangaDex API.
- Integrated Google OAuth 2.0 to authenticate users and enable direct uploads of downloaded content to Google Drive.
- Implemented token caching to reduce redundant web server requests and improve application efficiency.

Video Game Coding Projects

- Built a 2D platformer from scratch in Godot, including sprites and animations. Applying OOP principles including inheritance to structure game architecture.
- Built 5 CLI games in Java and C++ including Mahjong, Blackjack, Poker, Minesweeper, and 2048.

TECHNICAL SKILLS

Computer Languages: C++, Java, JavaScript, HTML, CSS, MySQL.
Applications: VS Code, Git, Vim, Godot Engine, Blender.
Creative Design: UI/UX, 3D Modeling, Game Development, Illustration.

EXPERIENCE

- Queens College CUNY, Tech Incubator**, Flushing, NY *November 2023 - Present*
Intern; Project and Administration
- Assist in administrative tasks, responding to inquiries, maintaining records, and providing technical support.
 - Support the day-to-day operations of the Tech Incubator program and its members.
 - Help organize and coordinate hackathons, workshops, and networking events.
 - Seek opportunities for professional growth and skill development.
- York College CUNY, STEP Program**, Jamaica, NY *March 2025 - May 2025*
Course Instructor
- Hosted and educated a class of 10 high school students on Zoom on Video Game Programming.
 - Guided students in navigating software and learning coding concepts such as Object Oriented Programming.
 - Created a complete 2D platformer game from scratch for students to utilize.
- Sungil Hong Physical Therapy**, Jamaica, NY *June 2023 - October 2023*
Elderly Care Assistance
- Communicated with patients in a manner which fosters a welcoming and relaxing atmosphere.
 - Maintained track of and tended to the needs of elderly patients; then relayed important information to therapists.
 - Assisted physical therapists, operated physical therapy and electrotherapy equipment.
 - Guided and instructed patients to ensure safe exercise and physical rehabilitation.
- Funzy Play**, Flushing, NY *August 2022 - June 2023*
Child Care Assistance
- Monitored and supervised children to ensure a safe and secure environment for children.
 - Planned, implemented, and carried out activities, games, and crafts.
 - Kept the play and common area clean and organized.
